Welcome!

Welcome to your guide to the perfect garage door for your home from Oxley Garage Doors, the North of England's largest and most professional specialist installer.

We secure much of our work through recommendation, so we approach every job in the same way - give sound advice, provide best value, install to a standard we'd expect for our own homes and always give a first class service. We want to ensure Oxley is a name you'll be happy to recommend to family, friends and colleagues.

Welcome to the guide

We know you don't buy a garage door every day, so when you do, you want to be in safe hands.

Established in 1985, Oxley has the experience and expertise to guide you to your ideal garage door. Our team is fully trained on all products, so you can be assured of good advice on how to make the right choice, with support at every step.

Our service extends beyond installation and handover. We are there for you in the years ahead to provide maintenance, repairs and upgrades - best value today and peace of mind for the future.

Our range is extensive - this brochure provides just an introduction to the selection we have available. Our products are sourced from the UK's and Europe's finest manufacturers. The criteria for inclusion in our range is simple:

- Quality & value
- Durability
- Ease of use
- Safe use
- Comprehensive and fair warranty

Our extensive showroom

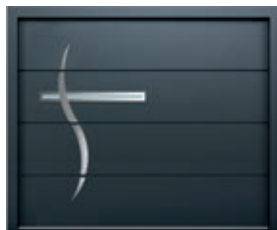

How to choose!

This introduction should help you start thinking about what is right for you. Not sure about what to choose? Our expert advisors are always on hand to help, just call 0800 0787979.

Style?

The design you choose is a great opportunity to add sympathetic styling or a striking accent. Garage doors represent a large part of the look of your home and Oxley has something for every taste - contemporary minimal through to classic traditional - each will bring a transformation to your home!

Finish & Colour?

The array of finishes and colours now available ensures you can choose just the right look. Textured finishes, colour coatings, wood effect laminates and natural timbers are just the start. Oxley can also produce custom colours to tie in with existing colour schemes - your imagination is the only limit!

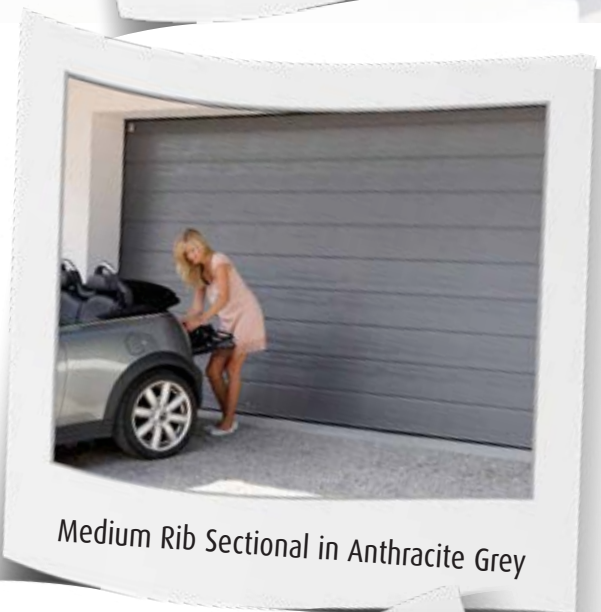

Performance?

The luxury of remote control is something its hard to imagine living without once you have it, but performance doesn't stop there.

Insulated garage doors can transform a draughty cold garage into a space that becomes part of your home. When security matters, Oxley has many products that carry the Secured by Design badge - The Police Approved Specification for security.

Talk to us about your ideal requirement and we'll provide the solution!

Sectional Garage Doors

1

Choose your style

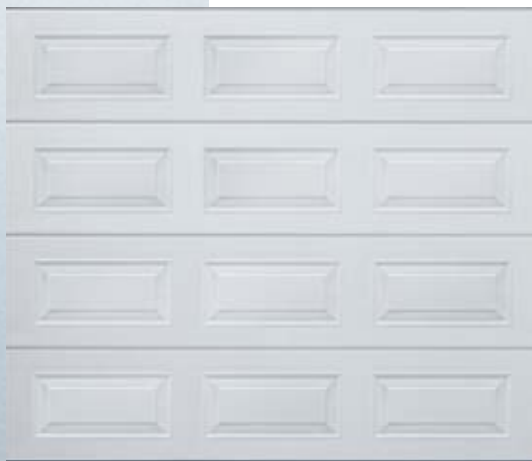

42mm thick insulated panels, all round draught seals, vertical travel for parking right up to the doors, solid and secure - a truly exceptional garage door. Made for remote control, so all this performance comes at the touch of a button.

2

Choose your finish & colour

The choice of finishes is vast. Solid colours, metallic colours and wood effects. Different textures too - smooth, embossed woodgrain or microrib.

Solid Timber Sectional finished in Rosewood

Protecting valuable items stored in your garage is important and we have a number of doors that meet the Secured by Design standard.

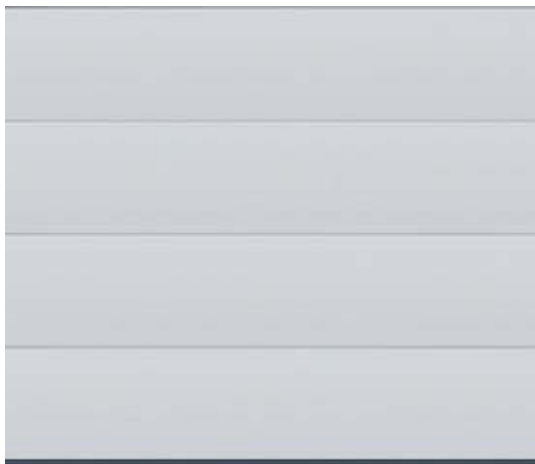

Small Rib Golden Oak Wood Effect

Georgian Sectional in Steel Blue

Remote control is perhaps the most essential luxury, especially on a rainy night!

Large Rib

Traditional Timber finished in Light Oak

Sectional doors are also available in solid timber, constructed from cedar and finished in a selection of wood shades.

Special Colours

If you don't see the colour you want in our standard range, we can paint your door to match other finishes on your home. RAL reference or Farrow and Ball shade. The paint finish has a low gloss lustre and will be a good match, but not an absolute match, to other finishes.

Matched to Farrow & Ball Cook's Blue

Matched to Farrow & Ball Pigeon Grey

Any RAL Colour

Choose your options

Georgian with Cross Mullion Windows

Garage personnel doors are available to match your garage door design - See page 14 for more details.

GSA Aluminium light strip replaces an entire panel of the door with a glazed section with an aluminium surround and mullions coloured to complement the door panel.

Sectional Garage Door Options

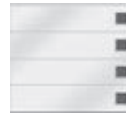

Sectional garage doors are incredibly versatile and can be personalised with windows and decorative decals to add light and a visual accent.

Polymer Windows

Scratch-resistant polymer double glazed windows in attractive designs allow natural light into your garage. Window frames are coloured to complement the door panel. Popular arrangements are shown below.

Steel Roller Door in Black

Steel Roller Garage Doors

Vertical opening gives Park-right-up convenience and combines with minimum intrusion into the garage space for a very practical door. The broad rib design looks great on any home. Whilst the steel door curtain is extremely strong and durable, spring assisted opening makes these doors light and easy to operate. Twin locking rods provide good security and the wipe clean finishes look good for years.

Adding remote control operation is easy and reliable, just press to open!

Light, smooth and quiet

Steel Roller Door in Anthracite

The curtain rolls neatly up behind your garage lintel so there are no tracks protruding inside your garage providing additional space and "park right up" convenience.

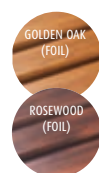

Steel Roller Door in Rosewood

Single Skin Roller Colours

Plastisol Leathergrain Finishes

Foil Finishes

Insulated Aluminium Roller Garage Doors

Reliability

A five year warranty covers the motor unit and the door control system - peace of mind as standard!

Somfy Rollix technology

The Somfy Rollix control unit uses cutting edge technology to control the door safely with a very reliable safety system that won't let you down.

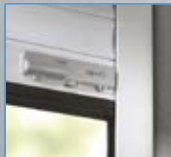

Somfy keyfob transmitter

Two Somfy remote controls are supplied with every door. Extra remote controls can be added and are easy to programme.

Safety sensing

Every door has a safety sensor built into the bottom weatherstrip that stops and reverses the door a short distance on detecting an obstruction.

Manual override

If power fails, a simple hand crank allows the door to be opened by hand.

Webbing

Slats are fitted with webbing to assist the smooth operation of the curtain and reduce the noise levels during operation.

Travelling vertically and rolling up neatly above the garage opening, roller garage doors allow the maximum use of storage space inside the garage. The insulation filled aluminium door is a high performance choice that is Secured by Design as standard, keeping bikes and other valuables safely stored inside your garage.

Automatic

With remote control as standard, these doors offer effortless luxury. Styling is crisp, with clean lines creating a modern look.

Insulated Roller Colours

Aluminium slats are corrosion resistant.

Wood effect finishes

Smooth coloured factory finishes

Compact Insulated Roller Door in Golden Oak fitted with white frame

Secured by Design as standard

Secured by Design

The door has a strengthened barrel, endplates and guides. The autolock feature prevents the door from being lifted by an intruder and the 105dB alarm is a piercing deterrent that sounds should an attempt be made to force the door up. All these security features combine into a door that has been independently tested to achieve the Secured by Design standard.

Autolocks as standard

105dB alarm as standard!

Secured by Design option

Up & Over Steel

Steel up and over doors do just that - travel up and over into your garage when opening. The classic styles are durable and strong, with light, spring assisted opening action in both single and double door sizes.

Retractable up and over doors are ideal for remote control and we'd recommend you choose automation as standard to open large double doors. It's an affordable luxury that works just as well on single doors too!

Up & Over Timber

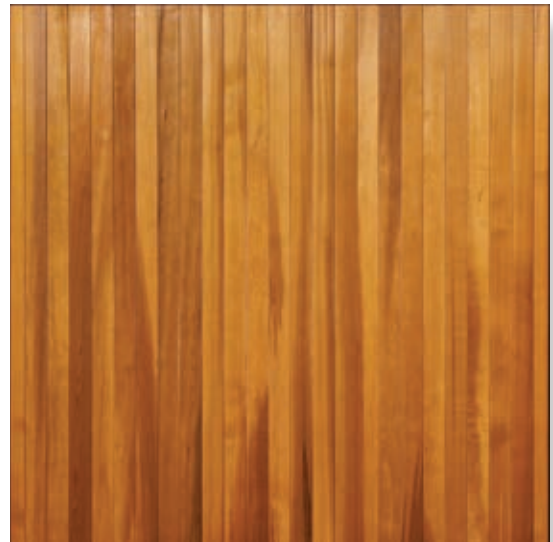

Hathersage Garage Door in Silver Grey

Timber doors have a natural beauty that just exudes quality. Made with selected cedar mouldings and cedar tongue and grooved boards, timber doors have a warmth and character all of their own.

All doors are supplied with a neutralising base stain ready for on-site finishing or available fully finished in a wide range of natural wood shades or painted to match most colours, including Farrow & Ball shades.

Safety first

Steel Roller Door drive and remote control

Automation

Remote control is a surprisingly affordable luxury. Almost all doors have it as an option and it can be fitted when your new door is installed or as an upgrade to an existing door.

Safety is paramount and we ensure every system is CE marked for safe operation.

Control options range from a simple key fob sized transmitter, right up to smart phone GSM control and intelligent door position sensing

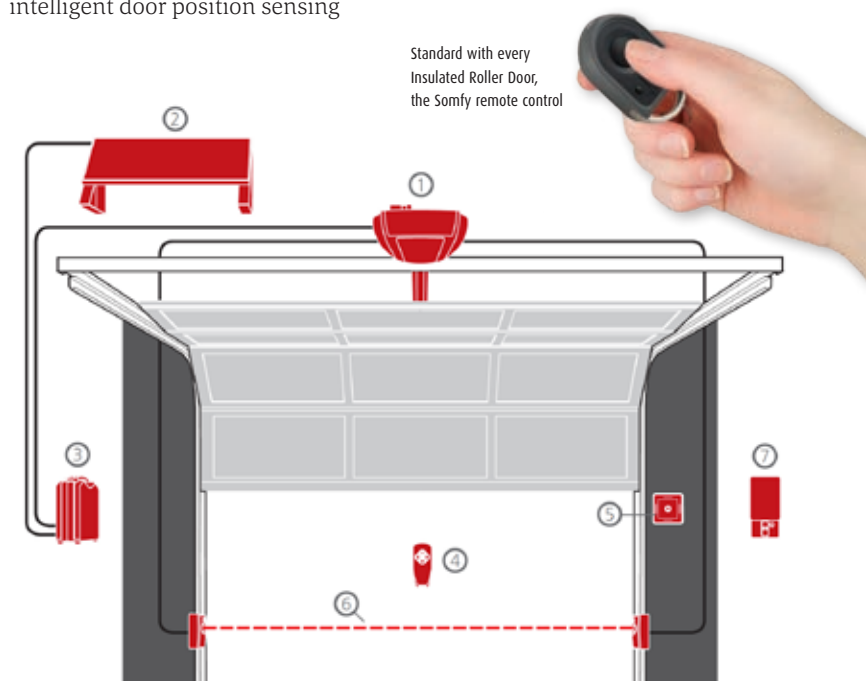

for complete peace of mind... "did I remember to close the garage door?!" Transmitters can also be linked to compatible automatic driveway gates via a multi button transmitter.

Your remote control garage door comes with a built in courtesy light for your convenience and safety.

On a cold, dark and wet night, you won't regret adding remote control!

1. Motor drive unit

Standard with every Insulated Roller Door, the Somfy remote control

2. Solar power unit

3. Rechargeable battery backup pack

Narrow Ribbed Horizontal / Vertical

Side Hinged

Side hinged garage doors are a traditional favourite brought right up to date. Convenient and so simple in every-day use.

Security is excellent and the range of styles, finishes and windows allows personalisation to suit your tastes.

Insulated Side Hinged

The solid 40mm thick insulated panels, engineered hollow section aluminium frames and high grade fittings, result in a door that closes with a reassuringly deep "clunk".

“A word about warranty & after sales service”

At Oxley's, we are passionate about aftercare. We understand the purchase of a new garage door is a significant investment and our dedicated personnel will ensure you get the best available service.

Our attention to detail has given us a reputation in Yorkshire, Lincolnshire and the North West to be the number one choice for garage door installations.

As with all mechanical products, they will need servicing and repairing. All work should be carried out by professional engineers.

We recommend a twelve month service plan. This will both prolong the life of your garage door and also keep up with the manufactures warranty.

All our products are covered by manufacturers warranty and terms and conditions will be supplied with your quote. We endeavour to ensure all warranty issues are dealt with both fairly and swiftly - your satisfaction is important to Oxley.

“A word about our products”

Oxley has long-standing trading relationships with the UK and Europe's leading manufacturers and we select the finest products for inclusion in our ranges.
